

BEBE

WHITE PAPER

THE BEBE MISSION

Welcome to Bebe, where the excitement of cryptocurrency and the warmth of giving back blend into one incredible journey. Inspired by the French word for babies, Bebe is all about celebrating everyone's shared beginnings—innocent and full of potential.

Bebe isn't just another meme coin; we're here to make a meaningful difference in the lives of children around the globe, especially those who need it most, while also stacking up real benefits for our community. Join us at Bebe, where we're not just aiming to make a difference for kids in need but also ensuring our community members see tangible rewards.

With a focus on tight security, smart tokenomics, and an ambitious roadmap, Bebe marries the thrill of cryptocurrency with the spirit of giving back. It's your chance to join a movement that celebrates both innovation and empathy, where each member contributes to shaping a brighter future.

Hop aboard the Bebe train! Dive into a project where tech meets heart—spreading kindness and reaping rewards. With every transaction, we're not just enhancing your crypto journey; we're lighting up kids' futures and empowering our community. Join us, and let's make every step count towards a better world!

TOKENOMICS

Diving into the world of \$Bebe tokenomics is like uncovering a treasure map where X marks a spot full of fairness, big-hearted giving, and a thriving ecosystem that just keeps on growing.

Total Supply? A Cool 8 Trillion!

Why 8 trillion? Because it's like giving a nod to every single person on the planet, all 8 billion of us, making sure there's more than enough \$Bebe to go around.

Big Hearts for Charity

Right at the heart of Bebe beats a strong love for making a difference. We've set aside a whopping 10% of all those tokens—that's 800 billion!—to help kiddos around the world through awesome charities like Save the Children. It's our way of sending a huge hug to the next generation.

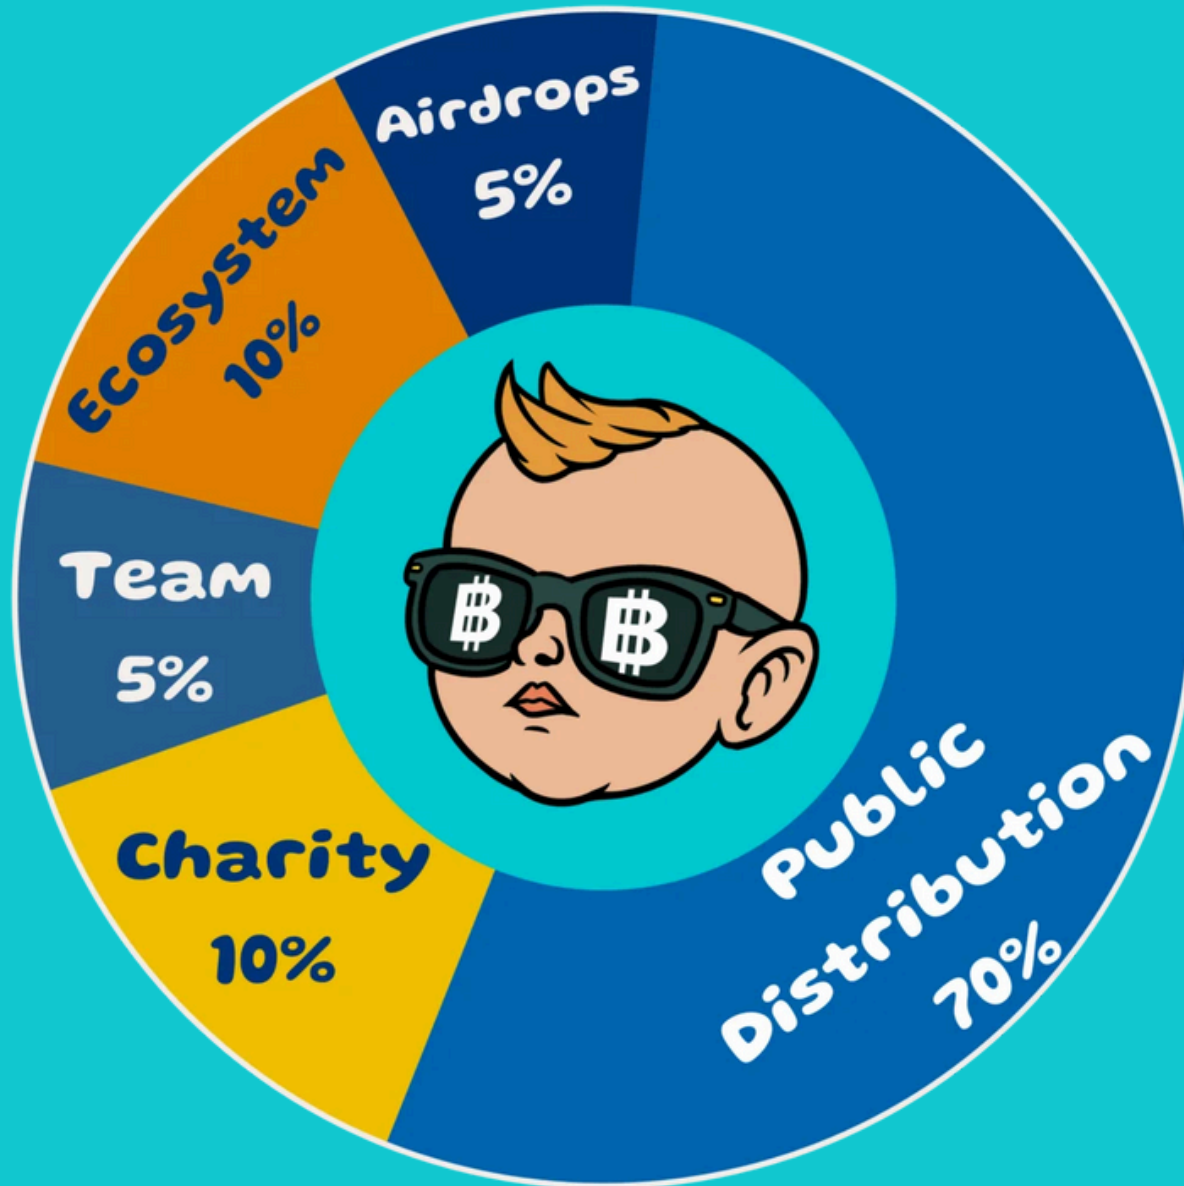

TOKENOMICS

Alright, let's dive into how we're distributing \$Bebe tokens, aiming for a mix that's as harmonious and cool as your go-to playlist:

- **Charity (10%):** We're allocating 800 billion tokens to charity, focusing our efforts on supporting initiatives that aim to improve the lives of children.
- **Ecosystem & Growth (10%):** We're channeling 800 billion tokens into the Bebe community and platform to fuel growth and ensure it thrives.
- **Core Team (5%):** A cozy stash of 400 billion tokens is reserved for the Bebe dream team as a thanks for their relentless drive and creativity.
- **Airdrops & Rewards (5%):** We're setting aside 400 billion tokens for airdrops and rewards, sprinkling a little extra joy among our early supporters and active members.
- **Public Distribution (70%):** The biggest slice, 5.6 trillion tokens, is for the community at large, ensuring \$Bebe reaches as many as possible through sales, liquidity, and partnerships.

TOKENOMICS

SECURITY AND TRANSPARENCY

Keeping things safe and crystal clear is how we roll at the Bebe project. Think of us as that friend who's always got your back, making sure our playground (aka ecosystem) is secure and everyone plays by the rules.

On Solana? Absolutely!

We're cruising on the Solana blockchain, which means transactions are not just fast—they're Fort Knox safe, and smoother than your favorite playlist.

Locking Down the Liquidity

Right after launch, we're putting a big chunk of liquidity on lockdown. Why? Because we're here for the long haul, aiming for a ride that's as stable as it is exciting.

No More Minting Magic Tricks

We've said "no thanks" to minting and freezing powers. This means Bebe is all about equal opportunity, keeping things fair and square for every holder.

Double-Locked Wallets

Our wallets come with a multi-signature feature, kind of like needing two keys to open a treasure chest. It's our way of making sure every transaction is on the up and up.

Short story: we're committed to making Bebe a safe, open space where fun meets philanthropy, and security meets transparency. Let's keep the good vibes and trust going strong!

ROADMAP

Buckle up, because the Bebe roadmap is like a treasure map to fun town, sprinkled with loads of do-good vibes along the way!

We've got a lineup that's going to keep things fresh and exciting—from dropping some super cool NFTs to rolling out games that'll have you on the edge of your seat.

And it's not just about the excitement; it's also about doing some good along the way. We're talking staking that comes with perks, launching a Fiverr-like Web3 marketplace (yep, real digital services!), and constantly refining our approach to ensure we're at the forefront of tech innovation while also shining a light on making the world a brighter place.

So, are you ready to dive into this journey with us? Let's make some waves, have a heap of fun, and spread some love while we're at it!

ROADMAP

\$BEBE TOKEN LAUNCH

The \$Bebe token launch is where all the fun begins, kickstarting the awesome Bebe ecosystem on the Solana blockchain. Think of \$Bebe as the key that unlocks all the cool stuff we've got planned, from unique NFTs and a marketplace to impactful charity initiatives.

\$Bebe is at the heart of everything we do and where we're headed. We're super excited to see how \$Bebe brings our community together—not just for the love and perks of crypto, but also for the amazing opportunity to do some social good in the world.

It's going to be an incredible ride, and we hope you'll jump in with both feet, ready to make a difference and have a blast doing it. Welcome to \$Bebe, where crypto meets heart!

BEBE NFT

Next up on our adventure is the launch of the Bebe NFTs, and let me tell you, they're not just any NFTs. These digital gems are your golden ticket to unlocking a whole world of perks within the Bebe ecosystem. Owning a Bebe NFT is like having a VIP pass to everything exciting we've got going on.

First off, these NFTs crank up the rewards for \$Bebe stakers. Yep, that's right—if you're staking \$Bebe, holding an NFT means you could see bigger payouts from the proceeds we make from the Bebe marketplace. And if that's not sweet enough, these NFTs also double your chances in our Bebe crypto games. Whether you're entering the lottery or trying your luck in the raffle, your Bebe NFT gives you an edge, doubling your chances to win big.

So, by snagging a Bebe NFT, you're not just getting a piece of art; you're diving deeper into the heart of the Bebe ecosystem, where the benefits just keep on giving. It's all about making the Bebe community richer—not just in earnings but in experiences too. Ready to join the fun?

BEBE NFT

Here's how we'll be slicing the pie from the proceeds of the Bebe NFT sale:

- **20% to Charity:** A solid fifth of all sales goes directly to charity, helping us support vital causes that improve children's lives. It's our way of ensuring that every NFT sold contributes to making a big impact.
- **15% for Our Team:** We're giving back to the incredible team behind Bebe with 15% of the proceeds. This ensures our dedicated crew is rewarded and motivated to keep innovating and pushing boundaries.
- **65% Back to the Bebe Ecosystem:** A hefty 65% of all proceeds are pumped right back into the Bebe ecosystem, focusing mainly on building out our Bebe Marketplace as envisioned in our roadmap. This major reinvestment ensures we're crafting a robust and dynamic platform that really shines for the Web3 community.

By picking up a Bebe NFT, you're grabbing more than just a cool piece of digital art; you're helping to sculpt a brighter future for the entire Bebe community and beyond.

BEBE MARKETPLACE

After kicking things off with our \$Bebe tokens and NFTs, we'll be dropping something that's a total game-changer for the Web3 space. Imagine a marketplace, similar to Fiverr or Upwork but for blockchain, where you can access Web3 services with confidence. This marketplace isn't just another platform; it's a pivotal solution to a major headache in the Web3 community: scams.

We've seen how scams can sour the Web3 experience, leaving folks out of pocket and disillusioned. That's why our marketplace would be stepping up as a trusty sidekick, safeguarding your funds until the job's done. Think of it as your champion in the digital realm, ensuring every deal is done right.

Ready to join the fun? Dive into the Bebe Marketplace once live, as it would be your go-to spot for scam-free Web3 services. Whether looking to buy or sell services, we've got your back every step of the way. Get ready to experience blockchain like never before—where you call the shots, and we keep the scammers at bay.

BEBE MARKETPLACE - FEATURES

Fair and Competitive Fees

We're leaning towards a 10% fee structure split between buyers and sellers, striking a fair balance between accessibility and supporting our platform's growth. This rate is still in the works, and we'll lock it down and share the details before we launch.

Seller Advertisements

Once we're up and running, sellers will have the chance to boost their visibility like never before! In the Bebe Marketplace, sellers could purchase ads to feature their services prominently. This would not only ramp up their exposure but also help increase the revenues of the marketplace.

Web3 Ads and Rewards

And that's not all we've got planned! As our user base grows, we'll introduce an exciting option in an **Ads and Rewards** section. There, Web3 projects could showcase their ads, and guess what? Stakers of \$Bebe will have the chance to earn rewards directly from these projects. It would be our way of spicing up our community's experience and adding more revenue streams to the marketplace.

BEBE MARKETPLACE - FEATURES

As the Bebe Marketplace expands and our user base grows, the Bebe community will get to vote on introducing a crypto games section. Imagine cranking up the fun with games that not only entertain but also give back! Here are some games we have in mind:

Crypto Lottery Game: Dive into a monthly crypto lottery where stable coins could win participants a substantial portion of the jackpot. Here's what would be up for grabs:

- **80%** of the jackpot gets divided among three lucky winners.
- **10%** goes to charity, spreading joy and love.
- **10%** gets pumped back into enhancing the Bebe ecosystem.

Crypto Raffle Game: Participants can put their crypto assets up for raffle in this exciting game. If the final prize isn't quite satisfactory, no worries—ticket purchasers can have their stable coins returned. Here's how it breaks down:

- **80%** of the proceeds reward the bold soul who puts up their crypto.
- **10%** goes to charity.
- **10%** boosts the Bebe ecosystem.

Holders of Bebe NFTs enjoy an added advantage—their tickets are doubled, significantly boosting their chances of winning.

BEBE MARKETPLACE – REVENUE SPLIT

Here's how we slice and dice the **net proceeds** from the Bebe Web3 Marketplace:

- **10% to Charity:** A big-hearted 10% flies straight to charity because that's what fuels the spirit of the Bebe community. It's all about making a difference!
- **5% for Our Team:** This slice goes to our incredible team, the rockstars behind the scenes. They truly deserve their piece of the pie for making everything happen.
- **55% Reinvested:** We'll be reinvesting over half the pie back into the marketplace to boost its functionality and profitability. We're all about taking things to the next level!
- **30% to Our Stakers:** And finally, a hefty 30% lands in the wallets of our fabulous \$Bebe stakers as monthly rewards, because they're the heroes keeping this journey exciting and viable.

And there you have it! This is how we ensure that every slice of the pie supports our mission and rewards our vibrant community. Every stake, every transaction, helps us all grow together!

BEBE MARKETPLACE – BUILD PHASES

Ready to dive into how we're bringing the Bebe Marketplace to life? We've mapped out a series of **6 dynamic phases** to bring this innovative platform to life. Each stage is designed to ramp up our marketplace's capabilities, making sure we cover all the bases—from legal ducks in a row to the coolest features you can imagine. Let's get rolling and see how each phase brings us closer to revolutionizing the Web3 service space!

Phase 1: Laying Down the Legal & Financial Groundwork

First things first—let's get the paperwork sorted! Phase 1 is all about diving into those essential legal and financial consultations. We'll be teaming up with top-notch legal and finance professionals to make sure the Bebe Marketplace has a rock-solid foundation. We'll also be choosing the best crypto-friendly spot to register the marketplace, ensuring everything is tip-top and transparent. This crucial first step lays the groundwork for a seamless journey as we build and launch the marketplace!

BEBE MARKETPLACE – BUILD PHASES

Phase 2: Launching the Bebe Marketplace MVP

Get ready for some real action once we launch into Phase 2 with the debut of our MVP (Minimum Viable Product) – a lightweight version of the Bebe Marketplace that's all about getting the basics just right. This phase is where we introduce essential features like secure payment custody between two parties and a handy messaging protocol between them. This setup lets users hash out and sign off on short contracts, clearly defining what a successfully completed job looks like—super handy for smoothing out any bumps and solving disputes before they turn into headaches.

But that's not all! Alongside our launch, we'll be ramping up our marketing efforts to ensure that everyone hears about the Bebe Marketplace as the next big thing to check out. We'll also be hitting the ground to chat with our users, getting all the feedback we can to tweak and improve the platform. And let's not forget about our fantastic \$Bebe stakers! We'll be putting together a slick payout system to make sure everyone involved reaps the benefits of their support.

BEBE MARKETPLACE – BUILD PHASES

Phase 3: From MVP to Full-Feature Marketplace

As we gather steam from Phase 2, Phase 3 would be all about expansion and enhancement. We'll start fleshing out the marketplace, adding features that allow service providers to list their offerings and buyers to peruse and engage with these services seamlessly. Plus, we'll be introducing a basic ratings system to help everyone make informed decisions and build trust within the marketplace. In addition, we'll retain our payment custody services from phase 2 as an option for users, giving them the flexibility to bring externally arranged transactions onto the platform.

But that's not all—marketing would still be in full swing! We'll be cranking up our promotional efforts to make sure the Web3 community knows all about us and gets as excited as we are. This phase would be about growing our presence and making sure the Bebe Marketplace is widely known in the Web3 space.

BEBE MARKETPLACE – BUILD PHASES

Phase 4: Enhancing the Marketplace with Advanced Features

Hold onto your hats because Phase 4 is where the Bebe Marketplace really starts to flex its muscles! We'll be enhancing our platform with a suite of robust features that take interactivity and functionality to the next level. Think Upwork or Fiverr-style review systems, where users can leave comments, request revisions, and approve or reject delivered services—making every transaction as transparent and user-friendly as possible.

But we won't be stopping there! We'll also be introducing enhanced advertising tools for service providers. This means more visibility for their listings, helping them stand out in a bustling marketplace and attract the right customers. Coupled with more sophisticated vendor ratings and an upgraded customer support system, we'll be setting a new standard for quality and reliability in the Web3 service sector.

BEBE MARKETPLACE – BUILD PHASES

Phase 5: Boosting the Marketplace with Ads & Rewards

Get ready for even more excitement in Phase 5 of the Bebe Marketplace! We'll be taking our platform to the next level by introducing an innovative advertising and rewards feature tailored specifically for external Web3 projects and businesses. This new feature would enable various entities to display their projects directly on our platform, linking them with our dynamic and expanding community.

But that's not all—there's a rewarding twist! These advertisers can offer exclusive rewards to the Bebe community, rewarding those who are staking \$Bebe tokens. It's a fantastic way for our users to engage with new projects and reap some extra benefits just for being active and committed members of our community.

BEBE MARKETPLACE – BUILD PHASES

Phase 6: Leveling Up the Fun with Crypto Games

In Phase 6 of the Bebe Marketplace, we'll be set to dial up the excitement with the introduction of crypto games! Picture yourself jumping into crypto lotteries and raffle games directly on our platform, blending the excitement of gaming with the vibrant spirit of our community. This phase is designed to add an extra layer of excitement and interaction for all Bebe community members and users, greatly improving the overall marketplace experience.

But here's the twist—we're all about community input! The decision to launch these crypto games won't be made in isolation; it would involve the entire Bebe community. Before these games are built, there will be a community evaluation and vote to ensure these features align perfectly with the ethos and interests of the Bebe community. Get ready for some community-driven excitement in the Bebe Marketplace!

BEBE MARKETPLACE - SECURITY

At Bebe, we're not just about making a splash; we're about doing it right. That means our development game is on point, and your security is top of mind. Here's how we'll be making sure the Bebe Marketplace is both fun and rock-solid.

Development Done Right

- **Smart Architecture:** Our smart contracts will be designed to grow with us. So we can add cool new features without breaking a sweat.
- **Rigorous Testing:** Before anything goes live, it goes through intense testing—like putting it through a boot camp. This includes all kinds of tests to catch bugs and make sure everything works perfectly.
- **Automated Processes:** We'll be using Continuous Integration and Continuous Deployment (CI/CD) best practices to automate testing and deployment, speeding up development and cutting down on mistakes.

BEBE MARKETPLACE - SECURITY

Top-Notch Security

- **Third-Party Audits:** We'll get our smart contracts checked by top security firms to catch any sneaky bugs or vulnerabilities.
- **Bug Bounty Program:** We'll invite security experts worldwide to help us spot issues and reward them for their sharp eyes.
- **Ongoing Reviews:** Our team will regularly review and update our code to stay ahead of potential threats.
- **Multi-Signature Wallets:** Our wallets would need multiple approvals for transactions, making unauthorized access nearly impossible.

At Bebe, we're blending fun with top-tier security and best practices. Our goal is to build a platform you can trust and enjoy. So hop on board the Bebe train, where every step we take is towards a safe and exciting future for our community!

BEBE PROJECT UTILITIES

Let's take a closer look at all the cool perks \$Bebe token and NFT holders can enjoy, making sure that being part of our community is not only rewarding but also a whole lot of fun!

- 1. Staking \$Bebe for Monthly Rewards:** First up, by staking your \$Bebe tokens, you can earn monthly rewards derived from the net proceeds of the Bebe Marketplace. This system is designed to ensure that as the marketplace grows and prospers, so do our loyal community members who support the platform.
- 2. Enhanced Rewards with Bebe NFTs:** If you're a holder of a Bebe NFT, your stakes get even sweeter. Owning a Bebe NFT not only bumps up the monthly rewards you receive from staking but could also potentially double your chances in any crypto games we launch, pending community approval. This means more opportunities to win and earn just by being an NFT holder.
- 3. Voting on Key Decisions:** Have a say in the future of the Bebe ecosystem! Staking your \$Bebe tokens grants you voting rights on major features and additions to the Bebe ecosystem. Votes are based on a per wallet basis, with a minimum staked amount required, ensuring fairness and meaningful participation from all stakers in the decision-making process.

BEBE PROJECT UTILITIES

4. Rewards from Web3 Project Advertisements: Another exclusive utility for our stakers involves the opportunity to earn rewards from various Web3 projects advertising on the Bebe Marketplace. As these entities promote their services and products, stakers can engage and benefit directly from these promotions, adding an extra layer of value to your \$Bebe holdings.

5. Potential Increase in \$Bebe Value: The economic design of the Bebe project includes incentives for holders to stake their tokens, effectively reducing the circulating supply and potentially increasing the value of \$Bebe over time. Additionally, as the Bebe Marketplace grows and becomes financially successful, the value of \$Bebe could rise, driven by the increasing monthly payouts from the marketplace's net proceeds.

Each of these utilities is designed with the community in mind, aiming to create a thriving, supportive, and rewarding environment. By participating in the Bebe project, you become a pivotal part of a community focused on growth, innovation, social good and mutual success. Join us and let's build a brighter future together in the expansive world of Web3!

WHAT THE FUTURE HOLDS FOR BEBE

As we wrap up this journey through the Bebe white paper, it feels like we're just getting started, doesn't it? From our humble beginnings to a bustling future ahead, \$Bebe isn't just a token; it's a movement. A movement that's all about bringing us together, celebrating our shared beginnings, and making a positive dent in the universe. And hey, we're doing it with the kind of flair and fun that only a community like ours can.

What's next for us? Well, the sky's the limit, but it's not just about reaching for the stars—it's about creating a path that's as rewarding as the destination. With every \$Bebe token staked and every NFT collected, we're not just building a community; we're crafting a legacy. A legacy that speaks volumes about our commitment to innovation, unity, and making a tangible difference in the lives of children around the globe and that of our community members.

So, here's to us, the Bebe family, as we embark on this exciting chapter together. With each step, we're not just moving forward; we're paving a brighter, more inclusive path for everyone. And remember, this isn't the end—it's the beginning of something extraordinary. Thanks for being part of this journey, for believing in the power of Bebe, and for making the world a bit better, one token at a time. Let's keep this amazing energy going, and who knows? The best stories of our adventure are yet to be written.

DISCLAIMER AND RISK DISCLOSURE

Before you dive into all the exciting opportunities our project has to offer, we want to make sure you're fully clued in on a few important points. This document is for informational purposes and is not a financial or legal guide. Here's what you need to keep in mind:

- 1. Consult the Pros:** Always talk to your own financial, legal, and tax advisors to understand what engaging with the Bebe project means for you legally and financially.
- 2. Risk Awareness:** Buying, holding, or staking \$Bebe tokens, as well as purchasing and holding Bebe NFTs, involves risks. The value can fluctuate, and you might lose part or all of what you put in. Be sure you're okay with these risks before you jump in.
- 3. No Regulatory Oversight:** Crypto assets like \$Bebe tokens and NFTs are not regulated by financial authorities, which means you're not covered by government oversight or protection. There's no safety net here, so proceed with caution!

DISCLAIMER AND RISK DISCLOSURE

4. No Ownership Rights: Holding \$Bebe tokens or NFTs doesn't give you any legal ownership or rights in the Bebe project or its assets. They're not shares or securities; they're tokens and digital assets that allow you to participate in our community and marketplace.

5. Market and Technology Risks: The world of crypto is exciting but can be unpredictable. Things like market fluctuations, technological glitches, or regulatory changes can affect your tokens and NFTs and their usability.

6. Project Evolution: While we aim to stick to our roadmap, the Bebe platform may adjust or deviate based on market realities. This flexibility ensures we stay responsive to technology trends and community feedback, enhancing our service to users.

Engaging with the Bebe project, including tokens and NFTs, is at your own risk. If you're hesitant or concerned about potential risks, it may be wise to reconsider your involvement. We're excited to build something great, but it's important that all participants proceed with full awareness and caution.

Thanks for being part of our journey—here's to making waves and building something truly extraordinary together!
